A multi-stakeholder initiative launched in 2019 to accelerate attainment of the sustainable development goals in low- and middle-income countries by facilitating the discovery, development, use of and investment in digital public goods.

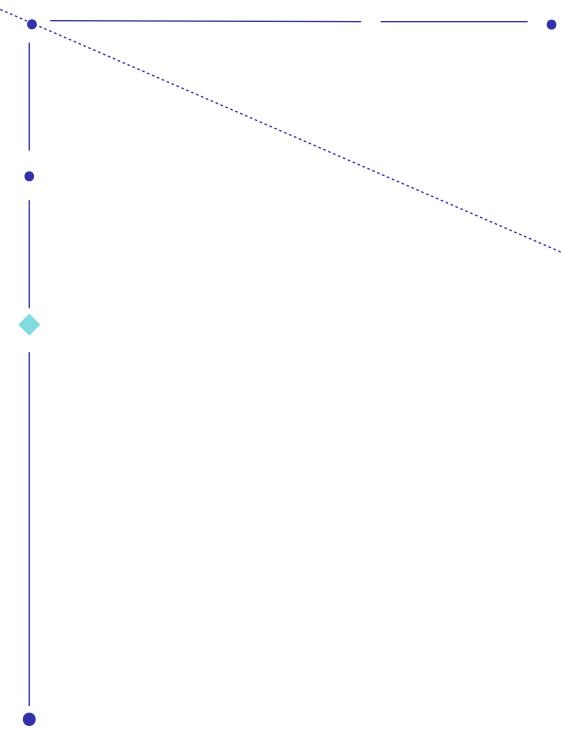

Visual Identity System

VI System is a package of visual elements that come together to represent the organization, those elements are the graphic imagery, color palette, fonts and a logo.

Keywords

Digital Public Goods

Alliance

Requires a Visual Identity that is:

Flexible
Dynamic
Accessible

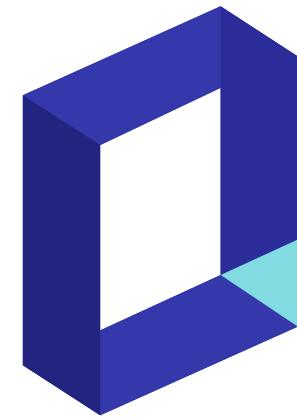

- Understanding the nature of the project

Key Concepts

Sharing
Connecting
Expanding

Digital world
Global impact
Human touch

Continuity, openness
discovery, open source

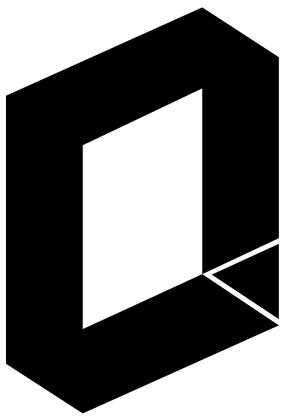

Digital
Public
Goods
Alliance

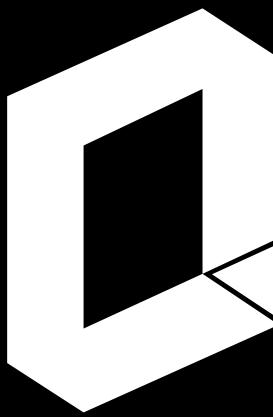

Based on “impossible geometry”, this logo creates an optical illusion that represents **the ability to solve seemingly impossible problems, by bringing different inputs together**. It also gives the feeling of continuity, of movement and connection. It’s an alliance, but also a window and a door that can lead us to previously unimagined scenarios that break the paradigms of what can and cannot be done.

The triangle represents new stakeholders and partners that can join the alliance as well as **digital solutions that can make existing efforts stronger**. The square can also be seen as a nod to stacks and foundations that once set can be built upon.

The screenshot shows the homepage of the Digital Public Goods Alliance (DPGA) website. At the top left is the DPGA logo, which consists of a blue 3D cube icon followed by the text "Digital Public Goods Alliance". At the top right is a navigation bar with links: Home (which is bolded), About, What We Do, Registry, Get Involved, and Blog. Below the navigation is a large, tilted photograph of a woman carrying a child on her back through a lush green field. To the left of the photo is a vertical column of text. The first part of the text is aligned to the left and ends with a dotted line. The second part is aligned to the right and ends with a solid line. Below this is a button labeled "Nominate a Digital Public Good".

• Promoting digital public goods to create a more equitable world
